Enrique Medina
Centro Cultural
P.O. Box 708
Cornelius, Oregon 97113

Dear Enrique:

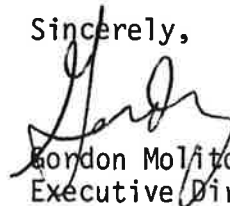

Enclosed is a purchase order authorizing the payment of \$1,870. according to schedule A of our December 1, 1982 contract. The check will be ready on July 15, 1983.

The plan looks good. It looks like alot of your's and the Board's energy went into it. It should be helpful in starting to priortizing Centro's activities and could provide an outline for presenting your workplans and progress reports to your Board.

I have two concerns about the Plan. Voter registration is certainly an activity Centro should work on. As we discussed, however, you must not use Federal funds for voter registration or transportation of votes to the poles. You should probably check to see if United Way dollars can be used or if you will have to use your other non-Federal funds. My other concern is that the plan does not address translation services. I assumed that the Centro decided not to be involved in translation services. I think the Centro should reconsider and if it doesn't provide translation services at least address encouraging other agencies to hire bi-lingual staff.

I assume that these funds will be reflected as program income or revenue on your United Way grant.

Sincerely,

Gordon Molitor
Executive Director
