

STATE OF OREGON

INTEROFFICE MEMO

May 1985
Read July

TO: Jim Sellers / *JEFF LEWIS*

DATE: February 13, 1985

FROM: Gerry Thompson *Gerry*

SUBJECT: Accomplishments by the Atiyeh Administration

Attached is a list of 1984 accomplishments. Missing are the economic development accomplishments which have all been previously forwarded to you.

Recognizing everyone's heavy time involvement during the legislative session, I still feel it necessary to begin compiling all of the Atiyeh Administration's accomplishments into an easily read, easily understood document, maybe categorized by issue. My goal is for the Governor to go out of office January 1987 with all accomplishments well documented.

I am asking that you, ~~perhaps~~ with the help of Jeff Lewis, begin the development of the entire document. Timelines suggested would be:

- First draft review - July 1985
- Second draft review - August 1985
- Final format and content approved - September 1985

- Compilation of 1985 accomplishments begins January 1986
- 1985 compilation completed February 1986
- Review and approval of 1985 accomplishments completed and added to document March 1986
- Compilation of 1986 accomplishments begins October 1986
- 1986 Compilation completed November 1986
- Review and approval of 1986 accomplishments completed and added to document December 15, 1986
- Final document complete December 20, 1986

Any comments?

* Jim / Jff - See Governor's comments above. I agree - a nice preface to entire document would be campaign promises 1978 & 1982 - & results of those promises. Gerry
