April 23, 1987

The Honorable Victor Atiyeh
International Consultant
519 S.W. Park, Suite 208
Portland, Oregon 97205

Dear Governor Atiyeh:

On behalf of Fujitsu Limited and Fujitsu America, Inc., I want to express our deepest appreciation for your efforts as our representative at the recently held United States Trade Representative public hearings. We believe your testimony and expert representation of our company position was instrumental in the decision not to include OEM and Testing Equipment products in the final order.

Because the trade issue will continue, we also need to continue our efforts in Washington, D.C. and elsewhere to let people know that our business is committed to our U.S. customers and to being a contributing member of American society. Your testimony supported this operating philosophy and helped preserve our business mission here.

Again, thank you for your expert advice, counsel and testimony over the past two weeks. We are very grateful for your contribution to our business.

Sincerely,

A handwritten signature in black ink that reads "Masaka Ogi". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Masaka Ogi
President
