INTEROFFICE MEMO

SUBJECT: Corrections Bonds Steering Committee

Discussed the steering committee with the Governor yesterday. He agrees that he and Dave Frohnmayer should be made honorary co-chairmen, but designate Donna Zajonc as the actual working chairman, if she will accept. The plan is for Dave Frohnmayer, Governor and us to decide the direction the committee should take, then at the first meeting of the committee, get them to accept that direction as if it were their own idea. In other words, we will decide the direction, but we don't want them to have the feeling we have set it for them. Then the committee can proceed with the work required.

Dave Fiscum also feels that we should add to the committee someone else representing the cities. None of this has been discussed with Dave or with Donna. Perhaps you should bounce it off Dave to see how receptive he is. If OK with him, proceed to see if Donna would accept the working chair. Although Donna will be busy campaigning, this is an area of her interest and could be a plus for her if the job is done well.

Let me know if you have any questions.

Governor
