Crematorium at the Big Muddy Ranch

Representative Billy Bellamy appeared in my office last Monday. He says he understands the followers of the Bhagwan are building a crematorium at the Big Muddy Ranch. He is fearful it could be used for all kinds of unlawful purposes, including falsification of birth records. (For example, a follower who is an American citizen dies, and is cremated -- perhaps along with the identity papers of a follower who is alien, and who keeps the deceased's identity papers).

Do you have any information or concerns?
