

## Find Phil Miner

- 1) Who actually possessed Boxer?  
Where are they now?  
Do they still have Dog?
- 2) If proper arrangements for display of Dog were made, would Boxer be returned?  
Does it matter that students still fight over Boxer #2?
- 3) Do you know if Boxer is intact?  
If he isn't, what's missing and where can the piece(s) be found?

1971 Denis Williams gained possession

Reported it located in Germany as statue for children's hospital on military base. Williams reported it would be returned and either sold or tossed.

BSU Pres Phil Miner said that until something is constructed of positive value for either the dog or its possession, "we might as well hang on to it."

Jim Cressland (72) claims to have seen Boxer @ Berkeley in June 1976 being held by former P.U. students for Williams.

Suggestion of article: Solve question of what to do with dog and question of its location will also be solved.
