

STATE OF OREGON

INTEROFFICE MEMO

TO: Governor

DATE: October 22, 1984

FROM: Gerry 

SUBJECT: Baker, Pendleton, The Dalles trip -- Issues at hand

Pendleton:

1. Meeker & Campbell are well aware that you will not campaign for Sen. Thorne's opponent. They understand and even said you can campaign for Thorne if you like.
2. The well situation in Pendleton went temporarily "out of control" last week. Dan Simmons of DHR did a lot of work with Joe McLaughlin and the city council. They tentatively agreed to accept the original plan for the wells as recommended by your original task force. THEN Jane Huston and one of her employes made direct contact with the city and advised them no agreement could be reached until General Services approved. Sen. Thorne called me and we back-tracked. No one can explain why General Services did what they did -- BUT everything was back on track as of Monday.

Baker:

In your material is a letter to Sen. Timms from you. Please personally deliver it. The letter commends Timms for his efforts toward the slide area in his district. Elsewhere you will have been provided briefing materials on the slide situation.

The Dalles:

This will be Rajneesh territory. The registration hearings process is being conducted now in the National Guard Armory.

Laura Bently, representing the concerned Oregonians will be privately and confidentially meeting with you in your office later this week. There should be no public specific comment regarding this.

Memo to Governor
October 22, 1984
Page 2

The Dalles cont:

You will be going to the Salvation Army center. Purpose is to thank everyone for all their efforts this last weekend and be briefed on what went well and what did not go well.

You should especially thank:

Lt. Trueblood of the Salvation Army and Gary Kopperud who were the leaders and who I appointed as official communicators with Governor's staff. They did a super fine job and helped to "keep the calm."
