Subject INTELLIGENCE INFORMATION

October 19, 1984

RE: RAJNEESH

MENTIONED: MA ANAND SHEELA
President Rajneesh Foundation International
Rajneeshpuram, Oregon

MA DURGA
In charge of security for Rajneeshpuram

On 10-11-84 writer contacted a confidential informant in regards to information pertaining to the Rajneesh. This informant has given the writer information in the past, that has proven to be correct. The informant has been very close to the Rajneesh Ranch and still has some involvement with Sheela, from the ranch.

The informant advises that on several occasions, as of late, Sheela has made phone calls to the informant, generally between 11:00 PM and 1:00 AM. During these phone calls Sheela is quite incoherent, cries alot and talks to the informant about various mistakes that she (Sheela) has made.

In recounting some of the phone calls, the informant recalls that on one occasion Sheela had advised prior to anything coming out in the press, that if things did not go her way there was going to be lots of blood shed. They would not sit by and watch their organization be destroyed. Sheela further advised the informant that she was very tired and had to take pills to go to sleep in the evenings and pills to stay awake during the day. She advised that this was having a real affect on her.

On another occasion, Sheela contacted the informant, crying, and stated that she was in alot of trouble because she had made a terrible mistake and used Rajneesh Corporation money to bring in the street people and not money from the religious bank account. This could cause her problems in seperation of Church and State.

Recently the informant was invited to the ranch to assist with a business deal. When the informant arrived at the ranch, the informant made contact with several people of past acquaintance that were original followers of the Baghwan, in India. It appeared to the informant that these people were not aware of alot of the statements that Sheela has been making to the press. The informant did note that the street-people were on the ranch and was told that there were certain Rajneeshes that had been assigned to the street people. Their purpose is to make the street-people comfortable and happy and implant the thought in their mind that the government is attempting to take their new home away from them.

OFFICER'S REPORT-Intelligence Information

October 19, 1984

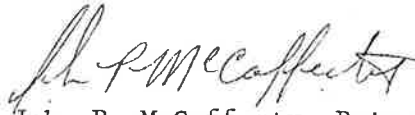

Page Two

The informant got the impression that the street people would possibly be used in the event that violence is planned.

The informant advised the writer that Sheela's personal phone number, at the ranch is 489-3378.

The informant could give writer no other relevant information except for things that had happened in the past and history of the organization; also, Sheela and how she rose to power.

Writer was requested to submit current information only. If more information is requested, it would be the subject of a follow-up report.
